Postdoctoral researcher at CLiPS

PhD in Computational Linguistics

MSc in Artificial Intelligence  
MSc in Applied Mathematics and  
Physics

# My advice to you

Make sure you know the basics!

Use Google and ChatGPT for  
everything, but do not trust  
them!

Check your code!

Use "print" function for whatever  
you can check!

"There are naïve questions, tedious questions, ill-phrased questions, questions put after inadequate self-criticism. But every question is a cry to understand the world. There is no such thing as a dumb question" –

Carl Sagan
